

# FEMA Map Service Center: Find Your Flood Zone and Create a 'FIRMette'

For communities in Belknap County, see directions on reverse instead.

**Step 1: Go To <https://msc.fema.gov>**

**Step 2: Enter address and click Search.**

**Step 3: Use the map and legend to find the flood zone for your location (flagged with with a red marker). If desired, you can change the base map by clicking the Streets icon.**

You can choose a new flood map or move the location pin by selecting a different location on the locator map below or by entering a new location in the search field above. NOTE: Please be sure to enable popups for this site.

**Step 4: To create a 'FIRMette', make sure the red marker is at your location of interest. If not, click on the map so it appears in the right place.**

**Step 5: Click on the Dynamic Map icon at top left.**

**A FIRMette map in .pdf format will appear in a new tab which you can print or save for future use.**

**National Flood Hazard Layer FIRMette**

**Legend**

Without Base Flood Elevation (BFE) with BFE or Depth

0.2% Annual Chance Flood Hazard, Areas of 1% Annual Chance Flood with average depth less than one foot or with drainage areas of less than one square mile

Future Conditions 1% Annual Chance Flood Hazard

Area with Reduced Flood Risk due to Levees

Area with Flood Risk due to Levees

Area of Minimal Flood Hazard

Effective Limits

Area of Undetermined Flood Hazard

Channel, Culvert, or Storm Sewer Levee, Dike, or Floodwall

Cross Sections with 1% Annual Chance Water Surface Elevation

Coastal Tract

Base Flood Elevation Line (BFE)

Limit of Study

Jurisdiction Boundary

Digital Data Available

No Digital Data Available

Unmapped

This map complies with FEMA's standards for the use of digital flood maps if it is not used as described below. The user must agree to comply with FEMA's flood map disclaimer. The Flood Hazard information is derived directly from the National Flood Hazard Layer (NFHL) and does not represent any other information. The NFHL is a dynamic data set and the NFHL and effective information may change or become superseded by new data sets.

This map image is valid if the one or more of the following map elements are not present: map changes, flood zone labels, legend, scale bar, map creation date, copyright identifiers, FEMA panel number, and FEMA effective date. Map images for unmapped and unannounced areas cannot be used for regulatory purposes.

# FEMA Map Service Center: Find Your Flood Zone and Create a 'FIRMette' (Properties in Belknap County Only) See reverse for instructions for all other NH counties.

Changes to this FIRM

- Revisions (0)
- Amendments (18)
- Revalidations (0)

You can choose a new flood map or move the location pin by selecting a different location on the locator map below or by entering a new location in the search field above. NOTE: Please be sure to enable popups for this site.

**Step 3: The map that appears does NOT show your flood zone! To view the flood zones for your area, click on the View/Print FIRM button at the top (blue magnifying glass icon).**

FEMA

Scale: 4% LOMC: 1

**Step 4: The flood map panel that shows your location will appear. You will need to use the zoom and pan controls on the left to find your location on the map. Then click on the Make a FIRMette button.**

FEMA

Scale: 17% LOMC: 1

Follow Instructions:  
1. Select page size  
Letter 8.5x11  
Legal 9.5x14  
Tabloid 11x17  
2. Select & Move Areas  
Print Area  
Scale and North Arrow  
Title Block  
3. Create FIRMette

**Step 5: Click on the red rectangle that appears to move it to the area you want included on your FIRMette. When you're done, click the PDF icon to save as a PDF. Then, on the next screen click the Save Your FIRMette button.**
